

Alok Kumar

Java Full Stack Developer

+91-7543070905 — kumarakaryan1706@email.com

LinkedIn — GitHub — LeetCode — Portfolio — GeeksforGeeks

Professional Summary

Java Full Stack Developer with hands-on experience building web applications using Core Java, Spring Boot, React.js, JavaScript, MySQL, JDBC, Hibernate, Maven, REST APIs, Git, GitHub, and JSON. Proficient in designing responsive user interfaces, developing scalable backend services, and integrating RESTful APIs. Strong foundation in Object-Oriented Programming, Data Structures, Collections Framework, Database Management Systems, and Software Development Life Cycle. Recognized for problem-solving abilities, analytical thinking, teamwork, communication, and continuous learning.

Technical Skills

Languages: Java, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Bootstrap, Responsive Web Design

Backend: Spring Boot, Spring Framework, REST APIs, JDBC, Hibernate

Database: MySQL, Relational Database Management Systems (RDBMS)

Tools: Git, GitHub, Maven, Eclipse, IntelliJ IDEA, VS Code

Concepts: Core Java, Object-Oriented Programming (OOP), Data Structures, Algorithms, Collections Framework, Exception Handling, JDBC, Hibernate, JSON, RESTful Web Services, API Integration, Version Control, SDLC, MVC Architecture

Certifications

Q-Spider – Software Development Training and Certification Program Jan 2026 – Present

- Built full-stack web applications using Java, Spring Boot, React.js, JDBC, Hibernate, and MySQL.
- Designed RESTful APIs to facilitate secure and efficient communication between frontend and backend services.
- Created reusable React.js components that improved code maintainability and user experience.
- Managed source code and project versions using Git and GitHub in collaborative development environments.
- Optimized application quality through debugging, testing, code reviews, and deployment support.

Projects

Portfolio Website

React.js • JavaScript • HTML5 • CSS3 • Git

Live Demo — Source Code

- Designed and developed a responsive portfolio website showcasing projects, technical skills, and achievements.
- Built reusable React.js components and optimized responsiveness across desktop and mobile devices.
- Applied modern UI/UX principles to improve usability and performance.

Insurance Policy Management System

Spring Boot • React.js • Spring Security • JWT • MySQL

- Developed a full-stack insurance management application using Spring Boot, React.js, and MySQL with role-based authentication for Admin and User.
- Implemented JWT authentication and Spring Security to secure REST APIs and protected application routes.
- Designed modules for policy management, policy purchase, insurance claims, dashboard analytics, and user profile management.
- Built RESTful APIs and integrated them with a responsive React frontend using Axios for seamless client-server communication.
- Implemented file upload functionality for claim documents and profile images, along with complete CRUD operations for policies and claims.

Achievements

- Solved 200+ coding problems on GeeksforGeeks covering Data Structures, Algorithms, Java, and SQL concepts.
- Completed 2+ full-stack web applications using Java, Spring Boot, React.js, Hibernate, JDBC, and MySQL.
- Maintained active coding profiles on GitHub, GeeksforGeeks, and LeetCode for continuous skill development.
- Strengthened problem-solving skills through regular practice of Data Structures and Algorithms challenges.

Education

Bachelor of Technology (B.Tech) in Computer Science Engineering

2026

I.K. Gujral Punjab Technical University, Main Campus, Kapurthala, Punjab
